BUYERS GUIDE

21 October 2025 | Crown Perth

Welcome to Meet the Buyer™ 2025

WA's premier food and beverage industry trade show

As the State lead for the food and beverage industry, the Department of Primary Industries and Regional Development (DPIRD) supports the sector through targeted programs, capability building and partnership opportunities that help Western Australian businesses compete locally and globally.

Meet the Buyer™ is delivered by Buy West Eat Best, a program administered by DPIRD that champions local producers, connecting them with consumers via a trusted brand, and strengthening market presence. Recent independent research underscores its impact: 81 per cent of West Australians are aware of the program, and three out of four actively look for the logo when shopping. For consumers, it is more than a mark – it reassures them about origin, value and local authenticity.

That trust translates directly into loyalty and commercial value. Shoppers consistently perceive WA-made products as fresher and higher quality than imports, and their preference to support local businesses and families drives market demand.

This loyalty is reflected at Meet the Buyer™ 2025. Now in its fifth year – and the largest to date – the event features a sold-out trade floor with hundreds of products, ingredients, businesses and brands from across the State. Businesses and brands from the Buy West Eat Best program and the wider food and beverage sector in Western Australia come together with regional and industry partners to convert consumer sentiment into tangible commercial opportunities.

Independent feedback shows how effective this forum has become: 67 per cent of attendees reported engaging with buyers or contacts they had not previously accessed; 83 per cent discovered new products or businesses; and more than half secured commercial value through new partnerships, market access or relationships.

One in five has gone on to collaborate with new partners following their participation.

The impact of the State's food and beverage sector is significant and growing. According to the Australian Bureau of Statistics (ABS), in 2023-2024, WA's food and beverage manufacturing turnover reached \$9.61 billion, a 12.3 per cent increase on the previous year. Employment in the sector rose to 22,000 people (up 10.6 per cent) and the number of food and beverage businesses increased 1,555 (up 2.7 per cent).

The broader industry supports over 100,000 jobs across more than 8,000 businesses and confirms the sector's strength and resilience. More than ever, Meet the Buyer™ provides vital opportunities for buyers and sellers to connect, ensuring WA's premium quality, regional diversity and growing global reputation are front and centre.

In 2025, the international reach and reputation of Meet the Buyer™ increases significantly with an international trade delegation of business owners and buyers from 12 countries attending with the support of WA TradeStart. These connections further open new pathways for export and collaboration, strengthening the State's resilience while driving innovation, development and global market access.

We thank you for your support of Meet the Buyer™ 2025. Together, with the Buy West Eat Best program presenting the day, we can deliver real outcomes for WA businesses and reinforce the loyalty of consumers who proudly choose local first.

Buy West Eat Best is a program of connection, collaboration, and community designed to forge enduring relationships and partnerships.

Acknowledgment of Country

We acknowledge the custodians of this land, the Whadjuk people of the Noongar nation and their Elders past and present. We celebrate and respect their continuing culture and contribution made to Perth city and greater regions.

Connecting WA with the world: **Taste WA 2025**

Western Australia's agrifood and beverage sector is world class - a cornerstone of the State's economy celebrated for its quality, integrity and innovation. In 2025, it will be on show to both local and global buyers thanks to a special collaboration between Taste WA agencies, Department of Primary Industries and Regional Development and the Buy West Eat Best program.

The Taste WA 2025 International Inbound Buyers Mission is delivered by Austrade's WA TradeStart agencies, bringing 22 buyers from 12 countries to Western Australia from 19-25 October. Aiming to strengthen international trade, open new markets and support producers in building sustainable and profitable businesses, delegates represent premium airlines, retailers, hotels, restaurants and import distributors across Asia and the Middle East. These are influential decision-makers seeking new WA suppliers of premium, sustainable produce.

This collaboration connects Western Australian producers with both domestic and international buyers – opening doors to new markets and placing our world-class produce on tables around the globe.

This year, the strengths of both programs unite at the Meet the Buyer™ trade show presented by Buy West Eat Best, creating a rare opportunity for WA suppliers to engage with domestic and international buyers under one roof.

By connecting WA's leading local trade platform with a proven international initiative that has welcomed nearly 200 overseas buyers since 2021, the collaboration

amplifies opportunities for local businesses to showcase their products, build export relationships and explore new commercial pathways.

It highlights the State Government's shared commitment to expanding market access and global visibility for WA producers.

Following Meet the Buyer™, the international delegation will embark on a tailored tour of the State, visiting producers in Perth, Albany, Manjimup, Augusta, Busselton and Bunbury. Delegates will meet export-ready suppliers, tour producer facilities across Perth, the Great Southern and South West regions, and meet the people who shape WA's premium food story. They will be immersed in our unique landscapes and sample succulent lobster, rock oysters, premium lamb, beef, wild-caught prawns, honey, packaged goods and non-alcoholic beverages.

At its heart, Taste WA 2025 is about more than showcasing outstanding food and beverages. It is a platform to strengthen international trade partnerships, highlight sustainable practices, and reinforce the State's reputation as a trusted global source of premium products. The collaboration embodies a united vision – to place Western Australia's world-class produce in both local and international markets.

The Sustainable Innovative Food Technologies (SIFT) Centre supports the growth of Western Australian's food and beverage manufacturing sector by providing access to advanced processing equipment in a commercial-scale production space.

Officially opened in February 2024, the \$12.2 million centre is located within the Food Innovation Precinct WA (FIPWA) at Peel Business Park in Nambeelup. The SIFT Centre is funded by DPIRD and operated by the Future Food Systems Co-operative Research Centre in collaboration with Murdoch University.

SIFT is open to all WA food and beverage businesses looking to scale up production, trial new products, or access expert guidance in a low-risk, shared-use environment. Through the SIFT Centre, businesses are able to refine and test products without the need for significant capital investment.

Come speak to the SIFT Centre team today to find out how we can support your food and beverage business.
